

Industry Placement Opportunity

Time: August – December/January

Project: Documentation of Threatened Flora and Fauna species in Moggill Catchment area

Organisation: Moggill Creek Catchment Group (MCCG)

Location

Coordinator: Greg Siepen will be field supervisor

Project Details:

To document the threatened plant and animal species occurring in the Moggill catchment by field sighting and ground-truthing anecdotal information

To prepare a summary list of such species with notes to their occurrence, distribution, abundance, threatening processes, opportunities for recovery etc

Skills

High level plant and animal identification skills

Interpersonal communication skills

Able to be self-motivated

Good report writing skills

Good analytical skills

Requirements

Must have own car but some joint inspections with Catchment Coordinator may occur

Assistance: \$300.00 may be supplied for petrol money to visit sites in the catchment.

Contact: Greg Siepen on greg.siepen@brisbane.qld.gov.au (mob. 0408 774 631)
